

This site is a work in progress that is going to take a while.

Each Page will have 3 things about the same subject.

1. A summary of the content that is in the PDF file

Often a person is not looking for detailed answer with references. They are looking for a short answer to give them the general idea. If that is the case this should suffice.

2. An audio that covers the content in the PDF file, but is condensed. (NOT a Transcript)

Many people would rather listen than read. This is for you. The current audios are AI text to speech. For myself listening to this unnatural speech bothers me after a while. I intend to replace them, but that is down the road a way.

3. The PDF file is by far the most detailed with quotes and references.

It is downloadable and you can share it with anybody you want. (Do not change it or sell it)

There are 2 PDF files. One is font size 12. The other is font size 16. I did the large font when I realized that it was hard to read on a smart phone. I find the large font works best when I turn the phone sideways. I still prefer to read paper and both are printable.

Spanish and Chinese

All of these PDF files are in English, Spanish and Chinese. Use the file number to identify the same content in another language.

For Example, the following are all the same content, but in 3 different languages.

a01. Who is Jesus Christ

a01. ¿Quién es Jesucristo?

a01. 耶稣基督是谁？

The translation was done by AI so it should get the point across, but might seem strange in places.

I tested it by translating from English to another language then taking the other language and translating it back to English. Close but not always right. Always keep this in mind especially when it comes to quoting the Bible.

I did not do a large font with the Spanish and Chinese simply because it changes the format and that is hard to straighten out when you cannot read the language.
